Increase Revenue and Improve Security

Municipality

Dear Manager;

Our many years of successfully providing network security solutions have brought to light our complete understanding of the challenges associated with running an office and managing security (*Virus scanning, network audits, etc.*). All while keeping a close eye on sustaining a balanced budget. ABS Computer is a recognized multinational leader in the deployment of Corporate and Network Security enhancement tools improving existing infrastructures within many corporations and utilities. We have been called upon consistently since our inception to enhance network operations for the better and would welcome an opportunity to do the same for your organization.

As a Pittsburgh based company, ABS has been recognized by the **US Commerce Association** as “*Best of Pittsburgh*”, for Systems Engineering Consultants for 2009 and 2010. An accomplishment achieved by bringing the right solutions to market along with intense focus on sustaining customer satisfaction and loyalty.

Should your PCs be getting slower or crawling to a halt, we have **FREE** tools that can be implemented to eliminate the Spyware, Trojans, and Malware that *traditional* PC clean-up tools all too often miss. Let ABS prove that these inadequate tools fall far short of expectation and show you how we can implement positive change that fills the gap.

Here are a few samplings of Municipality Solutions offered through ABS and affiliated partners;

- Eliminate SPAM, and viruses from your Email and Smart Phones! **SpamZapper®** saves the day.
- Save 30% or more on your hosting fees! Use ABS Secure Hosting for websites and email with filtered connections saving you time, money and keeping you protected.
- Perhaps you need a refresh of your website? ABS offers affordable, cost effective Website Design! Six page websites starting at just \$800.00. You should settle for nothing less than a website design that consistently draws customers in giving way to enhanced revenue opportunities. Check out www.ABS-CompTech.com as a “customer-centric” example.
- Do you want to collect the full amount you’re owed on each and every customer transaction? ABS is strategically partnered with Muncipay <http://www.municipay.com> to offer Free Credit Processing for Municipalities, Schools, Boroughs and Townships. Get connected!

ABS Computer is dedicated to providing local Municipalities with proven solutions to security issues related to infected PCs, Email SPAM, hacker-trouble on mail server(s), web hosting and/or simple website design. If your Municipality is connected to the internet, your PCs are already infected. Traditional security tools don’t go far enough. Let ABS get you to that complete “*peace of mind*” level of protection through implementation of its No-Cost Software solution for PC protection. We can and will save your Municipality money.

Initial consultations scheduled before May 15th will receive a free an ABS “Secure Tools for PCs” CD. These tools will protect your PCs far better than the traditional tools you have been using. Call today!

Sincerely,

Albert E. Whale, CHS CISA CISSP
Chief Technology Officer

2010 Member of the Presidential Who’s Who
